

**PACKAGE INSERT - ENGLISH**

For Animal Use Only.

**TUCOPRIM 40% POWDER**

**REG. NO. G 2020 ACT 36/1947**

**INDICATIONS AND PRESENTATION:**

A powder for use as a feed top-dressing for the treatment of respiratory, urinary, genital and gastro-intestinal tract infections, wounds and other infections caused by sulphonamide-sensitive organisms in horses.

Each gram of Tucoprime 40% Powder contains 67 mg trimethoprim and 333 mg sulphadiazine.

Tucoprime 40% Powder is available in a 400 g plastic tub with a 25 ml scoop equivalent to approximately 15 g.

**STORAGE:** Store in a cool, dry place, below 25 °C.

**WARNINGS:**

- \* Keep out of reach of children, uninformed persons and animals.
- \* For use in horses only. Do not use in horses intended for human consumption.
- \* Use of sulphonamides for prolonged periods can result in side-effects. Use only as directed.
- \* In rare cases animals may be allergic to the drug. If this occurs stop treatment immediately and consult a veterinarian.
- \* Do not use in horses with liver damage or blood abnormalities.
- \* Although this remedy has been extensively tested under a large variety of conditions, failure thereof may ensue as a result of a wide range of reasons. If this is suspected, seek veterinary advice and notify the registration holder.

**DOSAGE AND DIRECTIONS FOR USE:**

Use only as directed.

The recommended dosage is 30 mg of combined active ingredient per kilogram live mass daily for 5 days. Each level scoop contains approximately 15 g, which is sufficient to treat 200 kg of body weight.

**DOSAGE TABLE:**

<b>ANIMAL MASS (kg)</b>	<b>TUCOPRIM DOSE (g)</b>	<b>SCOOP</b>
100	7,5	0,5
200	15,0	1,0
300	22,5	1,5
400	30,0	2,0
500	37,5	2,5

The required dosage should be administered to the horse as a top-dressing with a small quantity of the animal's feed (preferably meal).
